

AI Models Unleashed

- OpenAI builds powerful large language models.
- Models offer advanced text generation and analysis.
- Our technology drives innovation and solves problems.
- Revolutionizing industries with cutting-edge language AI.

Problem

- Knowledge work is bottlenecked by human throughput
- Legacy software can't adapt to unstructured tasks
- Enterprises losing billions to slow decision loops

Solution

- Large-scale multimodal model served via simple API
- Fine-tunes that snap to sector-specific data in minutes
- Guardrails baked in for privacy and brand safety

Innovating with OpenAI AI

- Cloud API: text, vision, code generation in one endpoint
- Studio: no-code workflow builder for ops and R&D
- On-prem deployment for regulated industries

Market

- \$150 B global AI spend growing 28 % CAGR
- Land with pay-as-you-go API
- Expand to seat-based SaaS and data-hosting upsells

Traction

- \$42 M ARR, 19 % MoM growth
- 4,600 paying orgs across finance, pharma, logistics
- 94 % gross margin
- Usage doubling every 11 weeks
